## Mark Bolton

CEO & Principal  
Yeovil College & Yeovil College University Centre

### Welcome

At Yeovil College University Centre, we are proud to deliver a range of practical and academic qualifications in the heart of Yeovil to support you with the next steps in your career journey. Our University Centre offers a real alternative to traditional university, where you can study higher-level qualifications within a personalised environment. All qualifications have been designed with local employers and industry requirements in mind and are flexibly delivered for real people with busy time-constrained lives.

Yeovil College University Centre is constantly evolving and expanding its provision, introducing new qualifications year-on-year. We offer a range of qualification types from a Higher National Certificate (HNC) at Level 4 through to a full Bachelor's Degree at Level 6, many of which can be studied either full or part-time to allow our students to balance other life commitments alongside their studies.

This year, we are delighted to announce a prestigious partnership with The Open University, where we are introducing a brand new dental technology qualification into the South West of England.

Whether progressing straight from college or sixth form, or looking to return to education after some time away from the classroom, we are excited to welcome new learners to be part of our supportive and diverse student community.

**Mark Bolton**

CEO & Principal  
Yeovil College and Yeovil College  
University Centre

# WHY CHOOSE TO STUDY WITH US?

- Our dedicated University Centre is focused on delivering a high-quality higher education experience.
- We are partnered with prestigious UK universities and educational partners, including the University of Plymouth, University of Gloucestershire, The Open University, City & Guilds and Pearson.
- Qualifications taught by industry experts.
- No need to travel far and wide as we're based right here in Yeovil; the heart of South Somerset and North and West Dorset.
- Qualifications are practical and vocationally focused.
- Yeovil College University Centre offers a flexible learning experience, with the option to 'step on and off' as life and commitments vary.
- We offer Access to Higher Education qualifications for those who aren't quite ready for university-level study yet.
- We provide exciting work placement opportunities, which support our students to develop and progress.

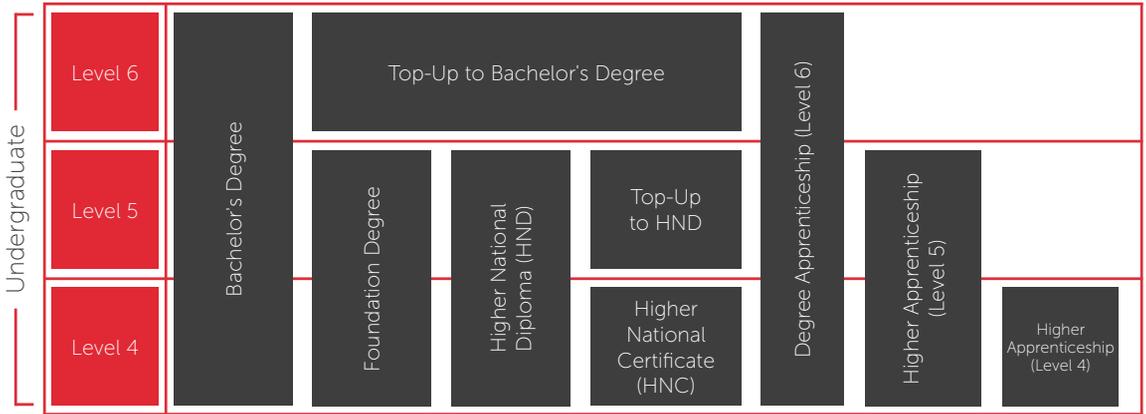

## WORKING IN PARTNERSHIP

Yeovil College University Centre works with the University of Gloucestershire, The Open University, University of Plymouth, Pearson, and City & Guilds alongside many more professional bodies to bring you a range of excellent, industry-recognised qualifications. When you study at Yeovil College University Centre your final qualification will be awarded by one of our prestigious partners. You will receive a qualification in the same way as others who have physically studied at one of our partner organisations.

We work collaboratively as a community to the benefit of our students, ensuring that you have local access to a wide range of high-quality appropriate qualifications, excellent teaching, and first-class support services.

# QUALIFICATIONS EXPLAINED

## Bachelor's Degree

A Bachelor's Degree (often presented as a BA, BSc, BEd or BEng depending on your subject of study) is an undergraduate qualification. This is the qualification that people typically think of when considering a degree programme at a university and it usually involves three years of full-time study, or longer if part-time.

## Bachelor's Degree (Top-Up)

A Bachelor's Degree (Top-Up) will allow you to build upon your existing Foundation Degree or HND to achieve a Level 6 qualification and help you to stand out in a competitive job market.

## Foundation Degree

Foundation Degrees are higher education qualifications which equate to the first two years of a Bachelor's Degree and will give you sector-relevant employability skills appropriate for the industry in which you wish to develop your career.

## Higher National Certificate (HNC) and Higher National Diploma (HND)

Higher National Certificates (HNCs) and Higher National Diplomas (HNDs) are vocationally based, work-related higher education qualifications which give you the practical, hands-on experience required to progress your career. A HNC is equivalent to the first year and a HND is equivalent to the second year of a Bachelor's Degree.

## Higher and Degree Apprenticeships

Higher and Degree apprenticeships are qualifications that involve students working towards work-based learning qualifications at Level 4 and above with current, up-to-date content relevant to their sector. Higher or Degree Apprenticeships may include a HNC, HND, Foundation Degree, Bachelor's Degree, or Professional Qualification element to the qualification, depending on the level at which you study.

# OUTSTANDING TEACHING

Our University Centre team is made up of experts who are truly passionate about learning and helping you to succeed. When you join YCUC, you will see the benefits of this directly. You will experience a personalised approach to teaching in a learner-centred, supportive environment.

## Expert Lecturers

Many of our study programme lecturers have direct experience working in their specialist field, making them the perfect figures to learn from. At YCUC we place great value on putting your studies into practice and getting you ready to excel in your chosen career.

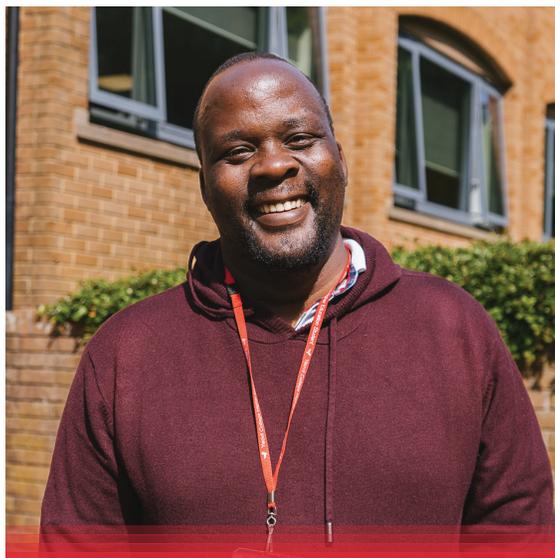

## Supportive Environment

We strive to ensure that our learners receive the upmost support. Our commitment to providing a secure and supportive environment along with exceptional teaching enables us to foster a positive and progressive environment for learning.

"I have always loved creative projects, particularly in embroidery, so the Surface Pattern & Textiles pathway really suited my needs. Mixing traditional and modern techniques keeps things interesting and I am so excited to present my work at our exhibition. The support from staff is fantastic, and our small class size allows each of us to receive the 1-1 time that we need."

**Jackie Hughes, BA (Hons) Digital Design & Media**

"Studying locally has been so convenient and I have been able to continue working alongside my study. Teaching staff are so supportive and I would urge anyone considering studying here to apply - don't think twice! Soon, I will achieve my dream of becoming a social worker."

**Ken Gitta, BSc (Hons) Social Work**

# BE PART OF A COMMUNITY

Our students all have one thing in common: an uncompromising ambition to learn and fulfil their potential. When you join Yeovil College University Centre, you become part of our community.

## Research Festival

Each year we host an Academic Research Festival, an event to showcase the amazing work created by our university-level students over the academic year. The 2023 Research Festival was certainly one to admire, with each presentation showcasing a passionate exploration of subject topics and each presenter demonstrating in-depth analysis of thought-provoking questions.

## Student Voice

At Yeovil College University Centre, we value your opinion and are always looking for feedback from our students. That's why we have a student union and the opportunity to become a student voice representative.

## College Clubs, Societies & Events

Spending quality time with like-minded people is important, which is why we have developed a range of groups and events for you to join during your down-time.

## Graduation

We love celebrating success and after several years of studying, it is only right that you have the opportunity to celebrate with your friends and family at a grand and formal Graduation Ceremony. Yeovil College University Centre hosts an afternoon of celebration at Westlands Entertainment Venue where hundreds of students enter as graduands and leave as graduates. Your awarding body will be invited to officially confer you as graduate of their institution. It is an occasion not to be missed!\*

\*Subject to business and/or student demand

# GET REAL WORLD READY

At Yeovil College University Centre, we care personally about each and every one of our students and want to set you up to succeed.

Whether you are taking your first steps into a new career or you're working towards a promotion, we are committed to ensuring you're ready for the workplace by the time you graduate.

## You can benefit from:

- Masterclasses, guest lecturers and speakers;
- Work and industry placements to support your career journey;
- Relevant industry specific visitors and guests;
- The option to complete additional professional qualifications;
- Industry experienced tutors;
- Qualification appropriate field trips;
- The opportunity to exhibit and showcase work;
- Developing analytical and presentation skills;
- Real-work projects, assessments and live briefs;
- Development of employability skills.

"This is my first time studying for a degree-level qualification and I am loving it! There is a clear line of sight for progression within my career at Yeovil College, and I am so proud of what I have achieved so far. It has been a challenge to fit my studying around working full-time, but Yeovil College has been really supportive and I know that it will be worth the work I am putting in. Learning about the foundations of delivering effective training is so interesting, and I feel that I have already been applying my learning in practice."

**Dawn Whitlock, Level 5 Diploma in Education & Training**

# SELECTING A QUALIFICATION

There are many factors to consider when picking a university-level qualification. Look at information about the modules each course covers to get a better idea of the topics you'll be studying. Even courses with the same name can look very different at alternative universities and colleges.

## How will the qualification fit around your life?

When you're thinking about full-time vs. part-time study, it's important to also consider when you'll be required to be on-campus and how you will fit that around the rest of your life. For example, some 'full-time' courses at Yeovil College University Centre only require you to be in College for one day a week, whereas others are spread over multiple days. Some part-time courses only require you to attend in the evenings, whereas with others you'll be coming in during the daytime.

## What type of qualification do you want to do?

When you're choosing a university-level study programme, you first need to decide what qualification you would like to do. There are many different types of university-level qualification available, from one-year HNCs to full Bachelor's Degrees, and everything in between. You might choose a route where you study your qualification in one go, or it might be that you get your qualification in multiple 'chunks' where you have multiple points to choose whether to step off, or continue to the next level (e.g. doing a Foundation Degree, and then 'topping up' to a Bachelor's Degree).

"I have been able to develop my skills using a range of equipment and facilities. Especially within the hardware labs, we have powerful machines, tools and software applications. The support that we receive from lecturers is great, and Student Voice allows us to share our opinions and get more involved in student life."

**Heba Haskale, BSc (Hons) Computing**

# ENTRY REQUIREMENTS

## What are Entry Requirements?

All of our qualifications have a selection of entry requirements which can be found on our website. Entry requirements are just one part of the admissions process. We also interview applicants to ensure we're getting the full picture of someone's suitability for the course.

## Are Entry Requirements Different for People Aged 21+?

Yes, for many of our qualifications we will gladly accept applications from people who will be aged 21+ when their course starts, who might not hold the formal qualifications we'd normally ask for but have alternative relevant experience. If you are over 21 and are interested in applying but are unsure whether you've got the right qualifications or experience, we'd encourage you to get in touch.

## What About GCSE English and Maths?

Lots of our qualifications require you to hold GCSE English and Maths, or equivalent. When we say 'or equivalent' that might be something like a Functional Skills Level 2 qualification. For some courses, these qualifications are desirable, but not essential. We offer both GCSE and Functional Skills courses at the College, so it might be that we can support you to get your GCSE (or equivalent) before your programme starts. In many cases, you are able to study the GCSEs free of charge, if you don't already have them.

"Working as a teaching assistant at a special school, studying, and parenting my four children has been challenging, but undoubtedly worthwhile. Support from my peers, lecturers and student support has helped me to achieve my goals and created a lovely community feeling in the classroom. I never thought I would be able to complete a degree, but now I am excited to continue even further! I hope that I can be a positive role model for my children."

**Kirsty Aplin, BA (Hons) Childhood Studies, Care & Education**

"I have three children and have dedicated many years to raising them alongside working, but now I am doing something to put myself first. I studied at Yeovil College many years ago, and my work placement as a student is what led me to my current job! It feels fantastic to be back, with so many new facilities and such a welcoming community of staff and students. Yeovil College University Centre has opened up so many new opportunities and shown me that you can learn at any age!"

**Annie Love, BSc (Hons) Social Work**

# HOW TO APPLY

## Full-Time

If you're applying for a full-time course, you need to apply using a website called UCAS. UCAS are the Universities and Colleges Admissions Service and they oversee applications for most full-time courses in the country. UCAS have lots of helpful information about how to apply, which you can find on their website.

If you are currently at sixth form or college, then a member of staff there is likely to be able to help you with your application – it might be your tutor, a Careers Advisor, or there might be a dedicated staff member to help with university applications.

If you are an adult returning to study, you are more than welcome to get in touch with the Yeovil College University Centre team for advice and guidance on how to apply.

## Part-Time

If you're applying for a part-time course (including the Level 5 Diploma in Education and Training) then you won't use UCAS. Instead, you need to complete a part-time application form. Email [universitycentre@yeovil.ac.uk](mailto:universitycentre@yeovil.ac.uk) or call **01935 845454**, and we will send you a copy.

## Application Timeline

Applications open in early September, one year before your course will begin.

In mid-January (about nine months before the course is due to commence) there is a date called the 'equal consideration deadline'. All applications received by this date must be considered equally by universities and colleges. Visit [www.ucas.com](http://www.ucas.com) for more information.

With the vast majority of courses, Yeovil College University Centre will continue to consider applicants right up until the start of September, provided there are spaces left on the course.

Occasionally, we run courses which start in-year. Information about these will be available via our website and social media.

## How can I find out more?

Get in touch with our friendly team by emailing [universitycentre@yeovil.ac.uk](mailto:universitycentre@yeovil.ac.uk) or calling **01935 845454**. Alternatively, visit the Yeovil College University Centre section of our website for more useful information.

# FUNDING & FINANCIAL SUPPORT

We understand that financial considerations are an important part of the university application decision-making process, and we are here to offer support.

## What do you need to consider?

There are two main things to consider when thinking about finance. The first is how you will cover the tuition fee cost of your course. For Yeovil College University Centre courses, you can find tuition fee amounts on our website, in 'Policies and Reports', in the Yeovil College University Centre section.

The second is how you will cover your living costs – rent, bills, and other outgoings.

## Tuition Fee Loan

Many students are able to get a Tuition Fee Loan from Student Finance to cover their tuition fees. For full eligibility criteria head to [www.gov.uk/student-finance](http://www.gov.uk/student-finance). This is money which is paid directly from Student Finance to your university or college.

## Maintenance Loan

Many students are able to apply for a Maintenance Loan from Student Finance to help support with living costs during their studies. The amount you'll be able to get will depend on a range of criteria, including the course you are studying, where you live, and your household income.

For full eligibility criteria head to [www.gov.uk/student-finance](http://www.gov.uk/student-finance).

Discover more about financial support on our website, by scanning the QR code.

## Repayment

You will only start making repayments if your income is over the repayment threshold, which is currently £25,000 for students who started a course on or after 1 August 2023 (correct as of September 2023).

If your income falls below the repayment threshold, your repayments will stop and only restart when your income is over the threshold again. Forty years after you're due to start making repayments, any loan plus interest remaining will be cancelled. Interest is chargeable on student loans, at variable rates depending on your circumstances.

For full information about terms, conditions, and repayment head to: [www.gov.uk/student-finance](http://www.gov.uk/student-finance).

## Extra Support

If you are a full-time student with children, or you have an adult who depends on you financially, you may be eligible for additional support through a Childcare Grant, Parents' Learning Allowance, or Adult Dependents' Grant. Visit [www.gov.uk/student-finance](http://www.gov.uk/student-finance) to find out more.

## Disabled Students' Allowance (DSA)

DSA is support to help pay the essential extra costs you might have as a direct result of your disability, including a long-term health condition, mental-health condition or specific learning difficulty, such as Dyslexia or Dyspraxia. You don't need to pay these back. Visit [www.gov.uk/student-finance](http://www.gov.uk/student-finance) to find out more.

# STUDY IN A WAY THAT WORKS FOR YOU

At Yeovil College University Centre, we focus on making our provision accessible to all. The way we teach, and the qualifications we offer, mean that students of all ages can join us and be set up in a way that allows them to excel in their studies.

We welcome students who are returning to study as adults and understand that everyone has competing life commitments. Helping our learners to balance university-level study alongside these commitments is something we pride ourselves on.

## How exactly do we do this?

### Flexible Learning

Not only do we offer qualifications with the option to step-on and-off, we also make sure that your timetabled learning hours are as flexible as possible. For many of our courses, there is the option to study either full or part-time. For example, when we say full-time study, this typically equates to one or two days of teaching a week.

### Smaller Class Sizes

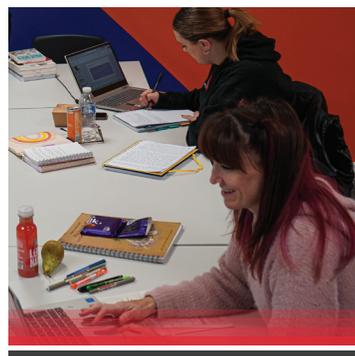

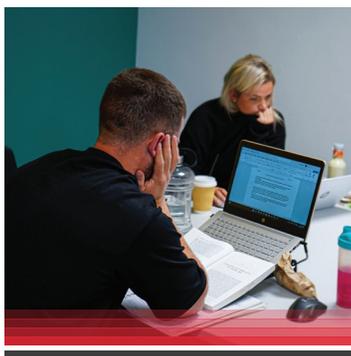

We make a point of keeping our class sizes reasonably small and this is for an important reason. We want each of our students to feel as though they are known and recognised, not just a number. When you join YCUC, you join a tight-knit, diverse community.

### A Dedicated Support Network

The YCUC team will always do everything within their power to help a student to succeed and achieve their goals. The team is made up of the perfect blend of experts to ensure we have all areas covered. From pastoral support to careers advice, we've got you.

### Expert Teaching

Our team of expert lecturers are well practiced in teaching and understand you might be joining us with varying levels of experience in areas such as academic writing and technological skills. With their support, we are confident each and every one of our learners will have the tools they need to succeed.

# INVESTED IN YOU

The team at Yeovil College University Centre are truly committed to putting you first and will go out of their way to find personalised solutions which make your life easier. We pride ourselves on being friendly, supportive, and totally student-focused; this sets us apart.

Our areas of support include:

## Wellbeing and Pastoral Support

Whether it's organising your workload, building your confidence, managing the step up to university-level study, or worries about wellbeing, our friendly Student Support Officer is there to provide a listening ear, practical support and signposting.

## Careers Support

We provide supportive, expert advice to help you decide what your post-YCUC plans are and help you to get there.

## Additional Learning Support

Support for students with disabilities, learning difficulties and long-term health conditions works slightly differently at university-level to school, college or the workplace. Whatever your circumstances, we will advise you about the support you may be able to access to help you excel in your studies.

## Financial Support

From getting your head around Student Loans, to whether you qualify for a Council Tax exemption, the YCUC team can help you to make sense of all of the funding and finance queries that go along with university-level study.

## Study Skills

Whether you're stepping up to university-level study from a Level 3 course, or returning to education after many years away, we will support you to develop all the study skills you need to succeed. All Yeovil College University Centre students have access to our dedicated Study Skills Programme.

## Library, Research and Referencing

Our dedicated Academic Liaison Librarian is on-hand to help you to find whatever you need for your upcoming assignments, and to help you to grow in confidence when navigating these resources by yourself.

Scan the QR code to find out more about how we can support you throughout your time with us.

"I faced several adversities in my personal life throughout my time as a student at YCUC, and I feel I would not have been able to complete the HND without the Student Support Officer. In any situation big or small, it's okay to not be okay, and to reach out for help, which will always be provided at YCUC."

**Leon Costello-Fox, HND Business**

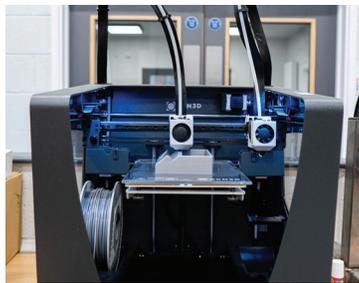

# BUILT FOR SUCCESS

Many of our University Centre qualifications fall under the umbrella of our Institute of Technology (IoT), and as the only centre in South Somerset, IoT students can expect many unique features, including high-quality education, superior facilities, leading technology, and the benefits of a strong regional partnership. Through our IoT, we offer a clear route into highly skilled, high wage employment, targeted towards boosting both local employment and social mobility across the country, and play a pivotal role in delivering the technical skills employers need to thrive and to create secure, high-quality roles.

## Investing in Higher Education

As we grow our higher and technical programmes, we have made significant investment in the redesign and reshaping of our campus, specifically around the qualifications which sit within our University Centre. Phase one saw over £2.2 million spent on transforming 20 spaces, enabling the delivery of sector leading provision in engineering and technology, health, computing, science, digital, and creative industries. The next phase is more significant, with an investment of around £50 million, which will revolutionise education in South Somerset and North and West Dorset. To find out more about our ambitious plans to build a truly extraordinary campus, visit [www.yeovil.ac.uk/campus-developments](http://www.yeovil.ac.uk/campus-developments).

Much needed technical education and training for the workforce in these areas is now significantly enhanced with an additional £10+ million in new state-of-the-art technology, providing apprentices and higher education learners with training experiences to enhance their knowledge and skills, adding value to their CVs and to the businesses in which they work.

"Yeovil College University Centre has some amazing facilities thanks to the IoT, including 3D printers and a wind tunnel! They help us to put theory into practice and enable us to get hands-on with our work. The diversity within the curriculum means that I will complete my apprenticeship with a range of skills that will ensure that I am able to pursue my dream career."

**Daniel Bowsher, Aerospace Engineer Degree Apprentice**

# HIGHER & DEGREE APPRENTICESHIPS

Our top-level apprenticeship programmes involve students working towards work-based learning qualifications at Level 4 and above with current, up-to-date content relevant to their sector. Higher or Degree Apprenticeships may include a HNC, HND, Foundation Degree, Bachelor's Degree, or Professional Qualification, depending on the level at which you study. You may also progress to new roles, such as management or technical specialists.

## How will it benefit you?

- You will earn a salary whilst you study.
- Your employer may cover the cost of any fees for you.
- It is common that apprentices are offered a permanent job or a promotion at the end of their programme.

## Our Offer

We are proud to offer a range of higher and degree apprenticeships across many subject areas. This includes the Aerospace Engineer Degree Apprenticeship, where alongside their on-the-job learning, students currently also study for a Higher National Diploma (HND) and then progress on to a BEng (Hons) Mechanical Engineering with Aerospace top-up degree in partnership with the University of Plymouth. To explore our range of apprenticeship courses, visit our website, or contact [apprenticeships@yeovil.ac.uk](mailto:apprenticeships@yeovil.ac.uk).

# ACCESS TO HIGHER EDUCATION

Access to Higher Education provides the perfect platform to support adults (19+) to develop a new set of skills, improve confidence and update their foundation knowledge base to support a change of career. It is often used by those people who wish to embark upon university-level study and/or who want a transition year before progressing directly to Yeovil College University Centre, one of our partner universities, or an alternative institution.

Access to Higher Education (HE) aims to give adults with significant life experience a fresh chance at learning and education. It is a nationally recognised qualification representing an alternative to the traditional A Level route to university. As well as giving you the opportunity to gain the academic skills you will need for a higher level of study, Access qualifications aim to support students so that they increase in confidence and develop strong interpersonal skills.

## Financial Support for Access to Higher Education

Visit [www.gov.uk/advanced-learner-loan/overview](http://www.gov.uk/advanced-learner-loan/overview) to explore financial support. You may be able to write off your loan if you immediately progress to higher education.

# COURSE OFFER

For more information about our courses, including module content and entry requirements, visit our website via [www.ycuc.ac.uk](http://www.ycuc.ac.uk).

**Full-time** = N/A  
**Part-time** = 2 years  
**Awarding Body:** City & Guilds

## TUITION FEES 2024/25

Please note that the information contained in this document is provisional, pending approval by the Office for Students (OfS). This document should be read alongside the 'Higher Education Fees Policy' available in the Policies & Reports section of the College website. If you have any questions or concerns around this information, please contact [universitycentre@yeovil.ac.uk](mailto:universitycentre@yeovil.ac.uk). For full and part-time higher education courses, tuition fees are payable at the start of each academic year. Students continuing on their programme will remain on the same tuition fee for the duration of their course. However, where students progress to a new programme, for example from HNC to HND (top-up), or from FdA/HND to BA (Hons), this is considered to be a new programme and will attract a new programme fee.

Programme name	Awarding Body	Full or part-time	Duration (years)	2024-25 Tuition Fee
BA (Hons) Digital Design and Media (all pathways) (top-up)	University of Gloucestershire	Full	1	£7,986
		Part	2	£3,993

Level 5 Diploma in Education and Training	City & Guilds	Part	2	£1,519

Please be aware that fees for BA (Hons) Business Management and Strategy (level 6 top-up) and BSc (Hons) Social Work are set by the University of Gloucestershire. Students should therefore consult the University of Gloucestershire's fees information to confirm tuition fees for these courses. Please be aware that additional fees will be charged to repeat / resit units in line with awarding body Academic Regulations and requirements. Additional fees may also be charged for resubmissions dependent upon qualification and awarding body. Please look at the course information pages on our website for details of any programme-specific costs that may be incurred. The Fees Policy is reviewed annually and fees will increase appropriately in line with CPI and market conditions and the basis for the review published and authorised by the Vice Principal Finance and Resources.

\*For courses that are run over partial years (notably, 1.5 year Engineering programmes) the fees charged may vary between years of study.
